- Charging time: 4,5 h.
- Warranty: 2 years

Index	Name	Price
334498	Head Multi LED	34,75 EUR

# Lighting workshop Standard

## Application:

A headlamp with a charger is a ideal solution for people who value comfort and intelligent technology. As a manufacturer of LED lighting, we have created a proposal that responds not only to the needs of professionals working on the construction site or in workshops, but also runners who care about safety during training. The Lena Lighting headlamp can be turned on by means of a hand movement (motion sensor), which allows you to automate the moment of starting the equipment. Thanks to this, a man working in gloves has no problem with turning on or off the head lamp. The lamp is also equipped with an anti-slip strap, so it sticks perfectly to the skin or hair.

### The proposed prices do not include VAT

The promotion lasts while stocks last!

As of the effective date of the above promotional sheet, all existing promotions will expire. Sales only through specialist agencies. We reserve the right to correct errors and change the technical descriptions of products during the promotion. Prices valid until December 31, 2022.
