Wire Preparation

Rising clamp terminal.

To make or release the wire from the terminal, use a screwdriver to push down the button.

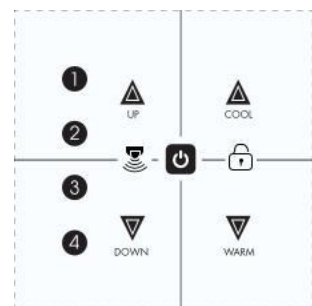

Operation

① ② ③ ④ Scene Recall

Scenes are simply programmed using the App.

Create and name the scenes using the scenes menu, and then assign the scenes to buttons ① ② ③ ④ from the device settings menu.

Senser take over

Press this button to quit manual override mode (Sensors will take over the control).

Clean Mode

Long press this button for more than 5s to go to clean mode (during this clean mode, the touch panel screen will be locked and does not respond to any touch), it will quit automatically after 1min.

The ON/OFF button has a configurable response via the App.
