

The image features two long, thin, rectangular light fixtures. One fixture is positioned in the upper left, angled downwards and to the right, emitting a bright white light. The other fixture is in the lower right, angled upwards and to the left, also emitting a bright white light. The background is a solid, deep pink color. The text 'Messaggio' is centered in a white, elegant script font, with 'by Dorota Koziara' in a smaller, sans-serif font below it.

Dorota Koziara

has designed
a luminaire line for us

The world-famous designer has created a collection of LED luminaires for us. The idea of the project is to combine the magic of light with a highly energy-saving lighting system. Cooperation with the designer is part of our strategy, in which we focus on combining innovative, pro-ecological technological solutions with top-shelf design.

Marzena Lesińska

Management Board Representative for Marketing

Dorota Koziara has a wide approach to design, as a designer she also deals with the promotion of design, company development strategy through design and design criticism. She's been designing for many renowned companies.

For many years she has also been the curator and organiser of exhibitions promoting design in the international field

Her works have been presented at numerous exhibitions in Poland and abroad, including in Milan, London, Paris, New York, Berlin, Tokyo and Zurich.

She has been the laureate in the international sculpture competition "Third Millennium" in Italy for the installation of "12 Angels" in Tuscany, Italy.

Messaggio
by Dorota Koziara

Light is a great inspiration for me. This is one of the most mystical phenomena that have ever existed. Without it, there would be no life. This source of energy, which we observe from the moment of birth, is our guide. It allows us to explore the world, its shapes, colours and processes. But light is also a magical phenomenon that unites us at the table and connects us with the entire Universe. The phenomena associated with it, such as chiaroscuro, rainbow or flashes, were often perceived in different cultures as signs or messages. Hence the name of my collection - Messaggio.

Dorota Koziara

I consider light the most magical phenomenon. It brings out shapes, builds the atmosphere and allows us to explore the world we live in. Lena Lighting invited me to cooperate and I am very happy that together we have created products that will help you illuminate your everyday life.

Dorota Koziara

A designer, artist, interior architect, art director and exhibitions curator.

DESIGN

Messaggio is a balanced combination of the highest quality design, intelligent technologies and art, which provides extremely wide arrangement possibilities.

It's a collection which allows to create multi-coloured variants of luminaires. The combination of their different versions – suspended, wall and floor luminaires - allows for creating phenomenal lighting and decorative compositions.

The LED modules used in the luminaires ensure a high level of energy efficiency. The steel, robust, yet visually subtle housing can be painted in two different colours from the RAL palette, both inside and outside.

Messaggio luminaires are also available with DALI control as option, which allows you to adjust the luminous flux. Our team of engineers and technologists can also program the luminaires according to the specific needs of investors and architects to enable light control in multi-luminaire compositions.

Messaggio
by Dorota Koziara

Messaggio luminaires are unconventional. They combine minimalist universalism with a subtle, avant-garde flair and bold colours, which gives the interior a unique flavour. They are available in the full range of RAL colours, as well as in combinations proposed by the designer herself. A single product can also be bicolour.

In design, recent years have focused on individualism. Personal needs, views and preferences is what matters. The design of the Messaggio luminaires follows this direction. Colour, just like light, affects our emotions. Modern science and medicine – especially psychology – devote a lot of space to both of these phenomena.

Unlimited colour combinations will make the space suitably tailored to individual requirements and sense of aesthetics. Thanks to this, you can create a positive, comfy space to rest or work.

Messaggio luminaires are as universal as unconventional
They perfectly fit into almost any style, and at the same time
enliven the interior with the dynamics of their form. Balanced
proportions, thoughtful variants and varied colours provide
unlimited solutions.

COLLECTION

The collection provides huge decorative possibilities.
It can help create fanciful ceiling compositions or entire light walls.

The Messaggio collection is the first line in the history of the brand that includes hanging, floor-standing and wall lamps. They can be installed individually or in the form of collective spatial compositions. Compositions provide the opportunity to create interesting decorative solutions.

BEAUTY

Luminaires from the Messaggio collection, available in various colours and sizes, can be used to create effective lighting compositions designed according to architect's individual ideas.

The combination of versions – suspended, at different levels, wall lamps of various sizes and free-standing luminaires, allows you to create phenomenal arrangements that will work in many places such as hotels, restaurants, art galleries, shopping centres, representative spaces, as well as private homes.

Messaggio

Suspended version

| | |
|-------------------------|---|
| Light source: | LED module |
| Rated power [W]: | 18 - 64 |
| Luminous flux [lm]: | 1100 - 5400 |
| Colour temperature [K]: | 2700, 3000, 4000 |
| Mounting method: | suspended |
| Body material: | steel |
| Body colour: | any from the RAL palette |
| Dimensions [mm]: | 1230/701/80, 1230/1261/80, 1230/1541/80 |

Messaggio

XS wall lamp

| | |
|-------------------------|----------------------------------|
| Light source: | LED module |
| Rated power [W]: | 2 |
| Luminous flux [lm]: | 100 - 150 |
| Colour temperature [K]: | 2700, 3000, 4000 |
| Mounting method: | surface-mounted, wall-mounted |
| Body material: | steel |
| Body colour: | any from the RAL palette |
| Dimensions [mm]: | 200/130/140 |

Messaggio

— Wall lamp

| | |
|-------------------------|---|
| Light source: | LED module |
| Rated power [W]: | 18 - 64 |
| Luminous flux [lm]: | 1100 - 5700 |
| Colour temperature [K]: | 2700, 3000, 4000 |
| Mounting method: | surface-mounted, wall-mounted |
| Body material: | steel |
| Body colour: | any from the RAL palette |
| Dimensions [mm]: | 128/701/106, 128/1261/106, 128/1541/70 |

Messaggio

Free-standing version

| | |
|-------------------------|--------------------------|
| Light source: | LED module |
| Rated power [W]: | 23 - 44 |
| Luminous flux [lm]: | 1400 - 4500 |
| Colour temperature [K]: | 2700, 3000, 4000 |
| Mounting method: | free standing |
| Body material: | steel |
| Body colour: | any from the RAL palette |
| Dimensions [mm]: | 280/1246, 300/1807 |

Being aware of the importance of environmental protection behaviours and future generations inspires us to put maximum effort into offering the highest quality, energy-efficient products; and to make sure that the entire process and technology of their production do not have a negative impact on the ecosystem.

Our efforts and their effectiveness have been confirmed by the ISO 14001 certificate. This means that Lena Lighting has successfully implemented an environmental management system. The overall goal of this system is to create conditions for the functioning of the enterprise in order to minimise the negative impact on the natural environment. We have already succeeded, but we are going to continue our journey and invest in technology and knowledge aimed at care for the natural environment.
